**Congratulations to Jerry Sanders on being elected Mayor of this fine city.** I look forward to working with him and his administration. I am confident that the Mayor and Council working together will boldly move forward to implementing viable solutions to getting this city out of its financial crisis and continually moving forward to improve the quality of life of city residents.

**As you know the Flu season is upon us and we have a new strain of Flu, Avian Flu, which is potentially deadly.** I want you to know and be assured that my office is working with the Office of Homeland Security, department heads, and other elected officials to ensure we are prepared to prevent and treat symptoms of the Avian Flu. I am told that presently the Avian Flu strain is not easily transferred to humans. The County Health Officer is closely monitoring this situation and will keep us informed of any new developments.

Make sure you take the appropriate measures to ensure you, your family and your fellow workers minimize your chances of catching any type flu during the flu and cold season.
